Theory vs. Facts.

All astablished theries are set aside by of freeze the said facts in this case sets of our fair ently enhanced one single entersingle mind, than institutions in Rochester. We refer to the manufacture of Hop Bitters. The remedial properties of hops, with the herbs introduced, principally buchu, mandrake and dandelion, had long been known, but there had been so much mere stuff-aye, deleterious stufffoisted upon the country, under the general cognomen of "bitters" and "remedies." that this medicine, which had been perfecting under the experiments of skilled pharmacentists and chemists, had to overcome the distrust of all such "remedies" by the slow process of information, which has been so successfully done that to-day the druggist who does not embrace Hop Bitters in the list of his regularly ordered medicine, or the family that does not know its beneficial effects, would be difficult to find.

is located on Mill street, from which emanates the preparation that is daily shipped to all parts of this country and to sections of the globe over wh at the American flag does not fi at. The business is splendidly systematized, and everything goes on so quietly that it would be difficult to imagine that so extensive a business was done in that locality. Each department is overseen by competent persons. The items f r botby competent persons. The items f r bottles and for packing-boxes are enormously surprising, and those who furnish these two articles alone have reason to rejoice at two articles alone have reason to rejoice at the discovery of Hop Bitters, while the myriads of sick people who have been cured by this invaluable remedy have greater reason to rejoice.—[Rochester Ever-
